

Rate Surveys

The RV park & campground rate data presented here should not be considered as representative of the total commercial campground industry as the sample of campgrounds participating in the survey was not randomly selected. Rate data is provided by commercial park operators on a voluntary basis. Those who volunteered may be more businesslike in their operation and more aware of and concerned with industry problems. Hence, the data may be biased in their favor. The data does, however, provide an indication of current rates at commercial parks reporting from these regions. Annual regional averages vary in accuracy depending upon which CalARVC members respond in any given year. Use these numbers as a guideline as they may not be representative of the region as a whole.

Rate Survey for California - 2008/2009						
REGIONS	Peak Season Daily 2008	Peak Season Daily 2009	Weekly 2008	Weekly 2009	Monthly 2008	Monthly 2009
The North Coast	\$36.52	\$33.75	\$194.36	\$190.00	\$477.05	\$571.11
Shasta/Cascade/Trinity	\$28.86	\$27.50	\$159.89	\$160.67	\$401.75	\$363.89
